Intended use: medical face masks is intended to limit the transmission of infective agents from staff to patients during surgical procedures and other medical settings with similar requirements. A medical face mask with an appropriate microbial barrier can also be effective in reducing the emission of infective agents from the nose and mouth of an asymptomatic carrier or a patient with clinical symptoms.

I declare that the above products meet the requirements of the Regulation (EU) 2017/745 of the European Parliament and of the Council of 5 April 2017 on medical devices (...).
The conformity assessment procedure was based on the development of technical documentation according to Annexes II and III of the abovementioned Regulation.
The EU declaration of conformity is issued under the sole responsibility of the Manufacturer.
